**OVERHEAD SIGN WORK ON I-93 NORTHBOUND IN CONCORD AND BOW**  
***WORK WILL REQUIRE NIGHTTIME LANE AND RAMP CLOSURES***

The New Hampshire Department of Transportation announces work is scheduled to begin the week of March 20, 2006 on the installation of overhead signs on Interstate 93 northbound in Concord and Bow.

This nighttime work will occur between 9:00 pm and 7:00 am for approximately two weeks and will require occasional lane closures and the closing of the I-93 northbound off-ramp at Exit 14 for at least two nights. During the ramp closure, traffic will be detoured to Exit 15. Sign work on I-93 will also take place near the I-89 interchange.

Liddell Brothers, Inc. of Halifax, Massachusetts is the contractor for the sign work.
